

Prolozone Therapy: Chronic Injury Solution for Athletes and Senior Citizens

Rejuvenateyou.com

One of Dr. Rucker's treatments utilized with our patients is Prolozone® or Ozone Therapy. Prolozone is a homeopathic/oxygen-ozone injection technique developed and pioneered by Dr. Frank Shallenberger. It is excellent for all forms of musculo-skeletal and joint pain including chronic neck and back pain, rotator cuff injuries, degenerative and arthritic hips and knees, degenerated discs, and shoulder and elbow pain. Because in many cases Prolozone actually corrects the pathology of the disorder, there is a chance for the chronic pain sufferer to becoming permanently pain free, and we are currently seeing an 85% success rate with our patients.

Prolozone is a form of non-surgical ligament reconstruction and is a permanent treatment for chronic pain. Prolozone is a connective tissue injection therapy of collagen producing substances and ozone gas which can reconstruct damaged or weakened connective tissue in and around joints. These substances are injected into the damaged connective tissue in and around a joint to rebuild the damaged areas. By repairing the connective tissue this is all that is needed to permanently reverse chronic pain.

Prolozone Therapy is an injection technique similar to Prolotherapy that uses ozone. The use of ozone causes the joint to heal much more quickly than in traditional Prolotherapy. This is because ozone is a highly reactive molecule and when injected into a joint capsule it is able to stimulate the fibroblastic joint repairing abilities.

Ozone Therapy has been found to be useful for many conditions including: Heart Disease, Chronic Fatigue Syndrome, Fibromyalgia, Herpes, Hepatitis, Interstitial Cystitis, Diabetes, Lyme disease, Chemical Sensitivity, Macular Degeneration, Intestinal Disorders, and Auto-Immune Disorders. We have found it to be very effective for Musculoskeletal disorders including: Degenerative Joint disease, Arthritis, Neck pain, Back pain, Carpal Tunnel, and Plantar Fasciitis.

In the short period of the company's existence RejuvenateYou and Dr. Bino Rucker have developed a niche healing professional athletes with various chronic injuries. We have been working with Jason Riley and his team at The Performance Compound in Tampa, FL and have worked with various professional athletes affiliated with the NFL, MLB, PGA, U.S. Track & Field, and MMA to name a few. The response with the athletes has been tremendous.

For our senior citizens we have seen amazing results with Ozone Therapy in order to expedite the healing process. Some of the conditions and symptoms alleviated with Ozone Therapy are arthritis joint pain, rheumatoid arthritis, joint disease, and pain resulting from a slip and fall to name a few. It is a viable option for someone to consider prior to getting a surgical procedure. Here is a list of FAQs which pertain to our senior citizens.

Dr. Rucker, our Medical Director at RejuvenateYou, is a surgeon with extensive clinical experience. Your Prolozone injections are given with extreme confidence and skill. His extensive surgical background ensures you are getting a highly skilled practitioner for these services. Many other clinics may offer these injections but rarely is the provider trained extensively in surgical procedures.

The same services being utilized by professional athletes is easily replicated to fit our amateur athlete and everyday person. This page and video testimonials will give you a glimpse into some of the procedures and successes we have had treating our patients with various chronic injuries.
